

Central Nervous System (CNS)

MAC is the neuroscience centre of excellence in the UK

73% of all studies we conduct fall within a CNS therapeutic area

Our medical leadership team share **80+** years experience in clinical research and drug development

We have conducted a total of **175** CNS studies in **19** different indications

CNS Study Experience

Cognitive Disorders

- Alzheimer's Disease (mild to severe)
- Agitation with Alzheimer's Disease
- Prodromal/Early Onset Dementia
- Parkinson's Disease-Related Cognitive Dysfunction
- Mild Cognitive Impairment

Psychiatric Disorders

- Major Depressive Order
- Mixed Depression
- Bipolar Disorder
- Generalized Anxiety Disorder
- Social Anxiety Disorder
- Depression with Erectile Dysfunction
- Obsessive Compulsive Disorder
- Post Traumatic Stress Disorder
- Bulimia

Pain

- Complex Regional Pain Syndrome
- Fibromyalgia
- Migraine
- Post Traumatic Neuralgia
- Post Herpetic Neuralgia
- Peripheral Neuropathy
- Diabetic Neuropathic Pain
- Osteoarthritis of the Knee
- Psoriatic Arthropathy
- Tennis Elbow

Sleep

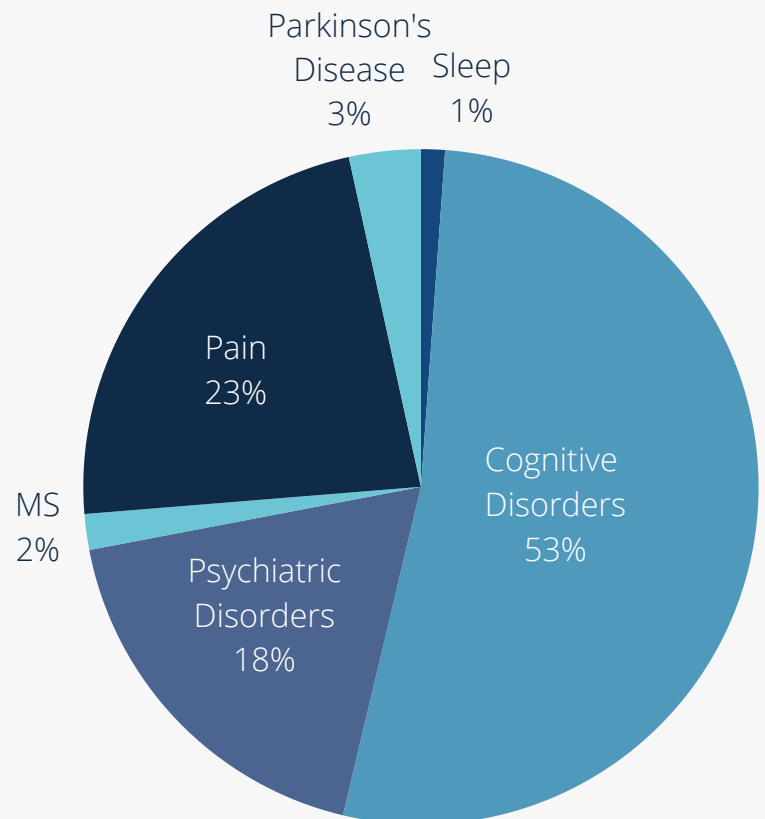

- Insomnia with Depression
- Narcolepsy

Parkinson's Disease

- Mild to moderate Parkinson's Disease

Multiple Sclerosis

- Spasticity in MS

CNS Expertise

- ✔ CNS is one of the key therapeutic areas of research conducted at MAC Clinical Research. In fact, we are recognised as a CNS Centre of Excellence.
- ✔ We specialise in the diagnosis of neurodegenerative disorders, with a particular focus on very early onset dementias MCI/Mild AD, along with those with potential genetic causes.
- ✔ Our experience spans all areas of CNS research; Manic Depressive Disorder (MDD), Anxiety Disorder, Panic Disorder, Treatment Resistant Depression (TRD), Post Traumatic Stress Disorder (PTSD), Parkinson's Disease (PD), Cognitive disorders that include Alzheimer's Disease (AD), Mild Cognitive Impairment (MCI), Multiple Sclerosis, Sleep Disorders and many more.
- ✔ We have therapeutic specialty expertise in psychiatric research, conducting trials from first-in-human (FIH) to clinical proof of concept in patients. Our clinical expertise is augmented by CNS experienced medical and clinical staff, including expert psychiatrists.
- ✔ Since 2005, we have been involved in designing, executing, and analysing several pain syndrome trials. Our team has experience investigating a range of diverse pharmacological classes and non-addictive pain compounds with novel modes of action.
- ✔ We are highly experienced in conducting FIH/early phase/POC studies with small molecules, large molecules, disease modifying agents and vaccines in MCI/Mild AD, MS, PD, MDD and other psychiatric conditions . We have full capabilities for in-house residential patient stays and a team of consultants/ specialists including neurologists. anesthetists and psychiatrists.
- ✔ We have extensive experience in conducting CSF sampling procedures for biomarker collection in Healthy Volunteers, MCI/ Mild AD, and PD patients.
- ✔ Our Imaging capabilities includes PET, MRI, ASL-MRI, and CT.

Our Medical and Scientific Experts

Dr Mark Dale
Chief Executive Officer

Dr Shoona Vincent
VP of Clinical Science

Dr John Connell
Chief Scientific Officer

Dr Aliya Asher
Chief Medical Officer

MAC Clinical Research

- ✓ Over 30 years' experience in conducting clinical studies
- ✓ Full-service CRO with global reach
- ✓ 8 fully-owned research facilities in the UK
- ✓ Experts in healthy volunteer and patient recruitment

CLINICAL RESEARCH SERVICES

Project Management

Clinical Operations

- Site Monitoring
- Site Management
- Trial Feasibility

Pharmacovigilance

Regulatory Affairs

Biometrics

- EDC
- Data Management
- SAS Programming
- Biostatistics
- Medical Writing

Vendor Management

Randomization and Trial Supply Management

Digital Solutions

- Electronic Patient-Reported Outcomes (ePRO)
- eConsent

Medical Monitoring

SITE & PATIENT SERVICES

Participant Recruitment

Participant Retention

Global Investigator Sites

Network of Fully-Owned Investigator Sites

- Sleep Laboratory
- Early Phase Unit
- Psychedelic Testing Suites
- Phase I - IV Research Facilities
- Memory Assessment Research Centre

SCIENTIFIC SOLUTIONS

Human Models of Disease

Scientific and Endpoint Assessments

- Cardiovascular Assessments
- Cognitive and Neuropsychological Assessments
- Dermatology Assessments
- Imaging Assessments
- Neurophysiology Assessments
- Pain Assessments
- Other Assessments
- Rare diseases

Sleep Assessments

Psychedelics
